PROCEDURE FOR ALLOCATION OF NEW CAP-MR/DD SLOTS

PROCEDURE FOR ALLOCATION OF NEW CAP-MR/DD SLOTS:

1. Each LME has received a new number of individuals that they may serve under the waiver. As the 9/28/06 memo states, individuals served are not required to have been Medicaid eligible and receiving CBS.
2. These new slots may be used to serve existing individuals on the LME's prioritization list or individuals transitioning from a community ICF or state developmental center.
3. If the LME has individuals who have been served on the waiver but move out of state or are deceased you may not use that slot for another individual until the next waiver year since the slot is considered filled for the current waiver year.
4. If the LME has individuals who move from one catchment area to another, it is the responsibility of the case management agency to notify the LME of the move. The LME will coordinate the transition with the receiving LME and with Kent Woodson in the Budget Team.
5. The LME continues to be responsible for prioritization of any individuals waiting for CAP-MR/DD waiver funding. They are also responsible for signing of the MR2 and submission to Murdoch Center. Until further notification the current process for submission of MR2s should remain in place. Additional information and direction for submission of MR2s will be provided at a later date.
